

Please do not allow your LPFM stations to replace FM translator services, thereby forcing our radio stations off the air, such as K-Love. K-Love is a very uplifting, Christian-based radio station that keeps me up to date with current artists and their music, as well as constantly encouraging with stories, scriptures and prayers throughout the day. I hear of many other people in our town who also listen to this station and would find it a very sad thing to no longer be able to receive the positive, encouraging words that are broadcast each and every day. I believe we need this positive influence in our lives to encourage us to be more loving, caring people who reach out to each other and help each other. Please carefully consider your decisions regarding the LPFM in this area. Thank you for giving me the opportunity to comment about your future plans.
